UPTOWN

HYBRID EVENTS

Events remain a relevant and vital way to stay connected. Technology and innovation are expanding the future of events with safety and security in mind.

From conferences to celebrations, consider virtual options to reimagine your event.

Hybrid Events include a small, socially distanced audience in addition to a remote audience. Perfect for a mix of in-person local attendees as well as long-distance attendees who are unable to travel.

Similarly, wedding couples or those celebrating milestones may desire this option in order to bring immediate or local family together, while sharing the moment remotely with loved ones across the country.

Hybrid Events may also be converted to fully virtual events with relative ease, should stay-at-home orders be re-instituted.

Call now to check availability & reserve your event space: 845-338-1299.
